Congratulations, on your new Hegel Röst. All Hegel products are based on a simple philosophy: Add as little as possible. Keep the music signal as close to the original as possible. We always chase lower distortion and lower noise. The music is reproduced as close to the original as possible and is limited only by the quality of the recording. Our aim is to give you the best possible music experience. Our minimalistic Scandinavian design is styled to fit in with any interior. The products shall be easy to operate and manufactured according to the best quality principles.

“Röst has to be the best looking amplifier we’ve created so far. The beautiful new white color and gorgeous new high end display, makes it a big step up in Hegel design. We kept the wave aluminum front, but updated the color and finish. With all the newest Hegel technology, such as our AirPlay integration, IP control and new Soundengine making it not only look good, but sound excellent. Don’t let it’s small size fool you, this little amp packs a punch. With a damping factor of 2000 it has excellent bass control, making 2x75 watts control big speakers without a hitch.”

Bent Holter
Founder Hegel Music System
What’s In The Box

Amplifier

Power Cord

Accessory Box

Remote Control

User Manual
Quickstart

1. Connect your speakers

For the best audio experience the distance between the listener and each speaker should be the same.
Quickstart

2. Connect a source

Unbalanced Analog

Balanced Analog

Coaxial Digital

USB Computer

Network streaming

Optical Digital
Quickstart

3. Connect the power cord

4. Turn on the amplifier
General Use

On/Off
The Röst amplifier is switched on and off with the power button, located on the underside of the amplifier, towards the front of the unit. When powered up, the Röst takes a few seconds to calibrate. During this time, the outputs are muted.

NOTE: When powered up, the outputs are muted and the right hand part of the display flashes for a few seconds, indicating mute. This is normal, and is part of the start-up procedure.
NOTE: When the Röst has been switched off, wait 30 seconds before powering on again.

Display
The left side of the display shows the selected source input, while the volume value is shown on the right side of the display. A flashing volume value indicates the amplifier is in mute mode.

Headphone Output
Connect the 6.3mm headphone jack to the front of the Röst. This activates the headphone volume control and mutes the speaker outputs.

NOTE: Variable Line Output is still active.

Source Selector
The input source selector knob is on the left side of the front panel.

Volume
The volume control knob is on the right side of the front panel. The volume level is indicated by a number between 0 and 99 on the right side of the display, with 0 being the mute level and 99 being max volume. The Röst powers up with a preset volume value. The volume level is adjusted by turning the volume knob clockwise or counter clockwise, or by using the Hegel remote control.

Mute
Pressing the mute button on the Hegel remote control mutes the outputs on the amplifier. The volume number flashes to indicate that mute is on. Press the mute button, or adjust the volume level, to switch mute off.

Status Indicators
The Hegel Röst will display the product status.

✔ If it is connected to a network
❌ If there is a network problem
Always power the amplifier off before connecting input/output audio cables and the power cable.

**Speakers**
- Right outputs
- Left outputs

**Line Outputs**
- Variable Line Level (RCA)

**Analog Inputs**
- Balanced (XLR): Standard balanced analog input (Pin 1 is Chassis Ground; Pin 2 is Positive Phase; Pin 3 is Negative Phase)
- An1(RCA): Standard analog input
- An2(RCA): Standard analog input

If you want to connect Röst to a Home Theater, see page 16

**AC Power Connection**
- AC Power connector with fuse holder: 230V/115V/100V AC depending on country.

**Digital Connections**
- Coax1: Input Coaxial/RCA
- Optical1: Input TOSLINK/EIAJ Optical
- Optical2: Input TOSLINK/EIAJ Optical
- Optical3: Input TOSLINK/EIAJ Optical
- Computer USB input
- Home network connection (LAN - RJ45)
Use the Network Configuration page to change the name, the IP settings and update the firmware.

PC: Open the Network Settings, under Media devices the Hegel Röst will appear. If the Hegel Röst does not appear, make sure the network is setup to hand out IP addresses automatically. When you click on the Hegel Röst, the Network Configuration page opens.

MAC: Open the Safari browser. Under bookmarks, you will find the Bonjour tab, and here the Hegel Röst will appear.

If you can’t find the Bonjour tab, select on (Preferences -> Advanced -> Bonjour) in the Bookmarks Menu.

Playing Files on a Network Device
The Hegel Röst can function as a DLNA Digital Media Renderer. This means that it can receive and play media files from a UPnP/DLNA compatible media player. For details on how to set up your media player, please refer to the user manual supplied with the player.

The Hegel Röst supports the following formats from a UPnP/DLNA compatible player: PCM (WAV/AIFF), FLAC, Ogg and MP3.

For more tips and tricks about how to use the Röst with a NAS drive, DLNA players and other software solutions, go to www.hegel.com/products/integrated/Röst.
Using AirPlay

Use AirPlay on the Hegel Röst to send the music stream from your AirPlay compatible device to the amplifier. First, connect the Hegel Röst to the local network using an Ethernet cable from the local network (LAN - RJ45) on the back of the amplifier to your router.

Make sure the Hegel Röst is connected to your network.

When connected, the unit sets up to DHCP, and automatically receives an IP-address and integrates in your home network. All AirPlay compatible devices will now detect the Hegel Röst in their list of AirPlay speakers. It will be displayed as “Röst”, followed by a unique number.

To activate the AirPlay function on your AirPlay compatible device, first make sure the device is connected to the same network as the Hegel Röst. For details on this please check the device manual. Select the AirPlay icon, then select the Röst. You are now ready to send the music stream to your amplifier.

Playing from iTunes on your Hegel Röst:
Install iTunes 11, or later, on your Mac or Windows computer. Launch iTunes, press the AirPlay Logo, and select the Röst. To play to more than one speaker, select the AirPlay logo, then “multiple” and select, the speakers that you want to listen to. The volume on each individual speaker can be adjusted.

WARNING: After selecting the Röst as the output, always remember to check the iTunes volume-setting before pressing play. The Röst will change its volume to the volume set in iTunes, when iTunes starts playing to the Röst.
The Hegel Röst can be controlled with the included Hegel RC8 Remote Control. The RC8 controls other Hegel products, such as amplifiers and preamplifiers, and most Media players on your Mac/PC, avoiding the need for multiple remote control device.

The remote control uses two standard 1.5-volt LR03 AAA batteries. To insert the batteries, use a crosshead (Phillips) screwdriver to gently remove the four screws on the underside of the remote control.

Insert the batteries with the correct polarity with + sign and – sign, as shown inside the battery holder. Be careful when inserting the batteries to not damage the battery holder. Replace the cover. Insert the screws by gently turning them by hand, to avoid damaging the threads in the remote control chassis.

Do not tighten the screws too much, as this can damage the screws and the soft metal chassis of the remote control.

Caution: Do not drop the remote control on the floor, as this can damage its internal parts and the battery holder.

To avoid damage to the remote control by leakage from the batteries during transport and storage, the remote control is supplied without batteries from Hegel.

Remote control buttons (starting top left)

1. Skip to previous track on most computers/media players
2. Play/Pause on most computers/media players
3. Skip to next track on most computers/media players
4. Input source selector button for Hegel DACs
5. ECO will put certain Hegel equipment in low power mode
6. Display on/off (hold for off)
7. Skip to previous track on Hegel CD-players
8. Play/Pause for Hegel CD-players
9. Skip to next track on Hegel CD-players
10. Switches up to next input on your Hegel amplifier
11. Stop/Eject for Hegel CD-players
12. Volume up for Hegel amplifiers
13. Switches down to previous input on your Hegel amplifier
14. Mute for Hegel amplifiers
15. Volume down for Hegel amplifiers
Special Functions

Display On/Off
The DISP button on the RC8 remote control may be used to turn the display of the Röst on or off. Hold the DISP button for more than 1 second to turn the display off. Press the button turn the display on.

Home Theater or Standard Analog Input
The Analog2 can be changed into a Home Theater input. This will set the Volume at a fixed high volume level. Use the RC8 remote to change the settings. Hold computer play until the setup menu appears. Use computer prev/next to navigate to “Home Theater” and press computer play. Now you can chose between Analog 2 or Home Theater. Then press computer play to confirm. Now don’t press anything for 15sec, and the Röst will return to normal mode.

WARNING: Activating Home Theater sets the volume at a high fixed level. This may harm your speakers if a fixed level input is connected.

Set Power Up-Volume
A user defined volume value may be used as the power-up volume. The current volume is set as the power-up volume by pressing and holding the DAC+ button while pressing Vol- on the RC8 remote control.

Max Volume
A user defined volume value may be used as the max volume. The current volume is set as the max volume by pressing and holding the DAC+ button while pressing Vol+ on the RC8 remote control. To reset, put to max voulme, press and holding the DAC+ button while pressing Vol+ on the RC8 remote control.
Special Functions

Reset to Factory Default Settings
By pressing and holding the DAC+ button while pressing Mute on the RC8, the Röst will be reset to factory settings. This will clear all user defined settings, including IP settings, and reinitialize Röst.

Using the USB Connection:
When you connect Röst to a computer with a USB cable (not included), the Röst will automatically install itself as a USB soundcard on all newer versions of Windows and MAC OS X, and most newer versions of Linux.

When your computer is connected with the USB-cable you may use the supplied remote control to skip/play/pause in most media players.

The first time you connect your computer to Röst: Connect the computer to the internet and close all media players, such as iTunes or Windows Media Player.

Troubleshooting with MAC:
Röst connected but no sound out of the speakers: Go to System Preferences – Sound – Output and select “TE7022 Audio w/ SPDIF” as the Output Device.

24 bit Audio:
Röst can receive 24-bit music files through the USB interface. Sending 24-bit audio signals, from your computer, may require some set-up in your media player. Setup varies depending on the operating system and the media player. Consult the FAQ section of the media player for details.

CD-quality and lower resolution files:
No additional set-up is needed.
General Information

Transport and Shipment
When packing the amplifier for shipping, follow these instructions to avoid damaging the unit:

Insert the amplifier into the plastic bag. Ensure the plastic bag does not press tightly on the knobs as this may damage them during transportation.

Place the amplifier into the shock absorbers. Place the amplifier with absorbers into the original cardboard box.

Cleaning
Fingerprints or stains on the front panel or top cover can be removed with a cloth moistened with warm water or a mild detergent suitable for cleaning mirrors and windows.

Warning
Hegel products should only be opened or serviced by certified technicians. The devices contain electronic components that may cause severe electric shock. Work performed on Hegel products by unqualified personnel may cause serious damage or personal injury.

The products must not be exposed to rain or moisture.

Warranty
All Hegel products come with a 2-year warranty against defective materials and workmanship.

Opening of the product by non-authorized personnel voids the warranty. In case you need any assistance with your Hegel product, please find your nearest dealer or distributor by looking at the Hegel web site www.hegel.com. If you experience any problems locating your dealer or distributor, please contact info@hegel.com.

More Information
For more information, please visit www.hegel.com/products/integrated/rost.

Use and Placement
The Hegel Röst should be placed on a flat, hard surface for proper cooling. A certain space is required for air circulation above and below the amplifier. The Amplifier must never be placed on a carpet or similar surface that obstructs air circulation through the unit. Nor should it be covered while in use or placed on a narrow shelf or other confined space.

The Amplifier needs some break-in time before maximum sound quality can be experienced.

Never lift the amplifier by holding around the volume knob or input selector knob. Röst is heavy, and applying pressure may damage the knobs.

The amplifier will automatically switch itself off if overheated.

The amplifier will need some break-in time before maximum sound quality can be experienced.

AirPlay works with iPhone, iPad and iPod touch with iOS 4.3.3 or later, Mac with OS X Mountain Lion or later, and PC with iTunes 10.2.2 or later.
